

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

Attachment 1

[Task Force Draft Letter Sent To The Attached Agencies]

The Director of the Office of Management and Budget recently initiated a broad study of Federal mapping, charting, surveying, geodetic and related activities (MC&G) to determine how best to use Government resources to fulfill requirements for these activities. The study will be concerned with Federal agencies that: (1) are involved directly in MC&G production; (2) contract for MC&G; (3) provide Federal funds for projects which include MC&G in the form of grants to State or local governments; or (4) use MC&G data in accomplishing agency missions. To undertake the study, Mr. Schultz established a Federal Mapping Task Force under OMB Chairmanship with principal members assigned from the Departments of Defense, Interior, Agriculture, and Commerce. A copy of Mr. Schultz's letter and the charter for the Task Force are attached for your information.

A number of working groups are being established to assist the Task Force. Two of these--one concerned with resources and another charged with determining requirements underlying Federal programs--will be visiting your agency in the near future. The working groups will require detailed data on the nature and scope of your pertinent activities.

Your cooperation and assistance in expeditiously providing the information needed to meet Task Force objectives are appreciated.

Sincerely yours,

Emory E. Donelson
Chairman, Federal Mapping Task Force
